Subject: Comments and Questions on the Bristol Bay Assessment

<<...>> Dear Ms. Smith and Ms. Ekman, at the Assessment meeting on August 9, and 10th in Anchorage at the Inlet Towers, Richard Parkin announced that the Advisory Panel had two weeks to send in comments concerning the diagrams and endpoints that were presented to develop a study of the watershed at the Kvichak and the Nushagak Rivers in the Bristol Bay Watershed for the purposes of determining whether or not invoking the 404(c) of the Clean Water Act was warranted. Enclosed are my comments concerning the presentations made at the workshop.

Is there someone else that should have a copy of the comments? If so, please do not hesitate to forward to them my comments. I will send a hard copy to you via US Mail before the deadline of the 24th of August.
